

## Welcome to the Industry Club Day on June 8, 2023

Now it is finally time to sign up for the Department of Automatic Control's Industry Club Day 2023. It will take place on Thursday June 8, at 15:00 – 18:00. The location will be the seminar room in our newly renovated offices in the M-Building at Ole Römers väg 1. If you enter the building from the west side, you go up the stairs to the right two floors and there it is. It might be a bit unfinished though, but hopefully we will manage. If there is enough interest, we will arrange a tour of the building, including the new robot lab location, after the meeting.

### Program

This event is aimed for networking and sharing ideas and thoughts. The program will contain round table discussions and networking, among other things.

#### *Welcome*

Industry Club Group - Karl-Erik Årzén.

#### *Info from the department*

Master Thesis collaboration with industry incl set up and some statistics; Bo Bernhardsson, contact for master thesis collaboration/ undergraduate studies.

#### *ChatGPT-4 and Large Language Models*

What are the implications of large language models for research and education  
Bo Bernhardsson and/or Johan Grönqvist, PhD student.

#### *Demo Brain Computer Interfaces*

Pex Tufvesson, Industrial PhD student and Martin Gemborn Nilsson, PhD student at Automatic Control department.

#### *Round table discussions*

We will have three "round tables" covering Master Thesis, WASP calls for Industrial PhDs and Postdocs and Joint research proposals/applications to EU/Vinnova etc. Feel free to join any of these discussions.

#### *Mingle*

Enjoy some snacks and drinks, mingle around, and take the opportunity to chat with peers.

#### *M-Building Tour*
